

A modern, multi-level interior space with a curved concrete staircase, large windows, and wooden pillars. The space is bright and airy, with a mix of materials including concrete, wood, and metal. The architecture is characterized by clean lines and a sense of openness.

GIRA

Smart Home.
Smart Building.
Smart Life.

Design in a
world between
On and Off.

Gira / Inspiration

We are Gira.
We are the ones with the switches.
But we're so much more.

Future-oriented.
Certified.
Responsible.

We're the guardians, innovators,
Smart Home pioneers, developers,
system thinkers, KNX partners,
shapers of the future, patent masters,
award winners and designers.

But above all, we are the ones
who listen.
To you.

Subtle, but smart.
With distinct focus on quality,
materials and functions.
And the driving force of innovation.

In our hearts, we are engineers
on a mission to inspire.
With new technologies,
smart applications and
impressive attention to detail.

We will always work our hardest
to find the best solution for you.
With service, design and performance
made in Germany.

Because that is what we stand for.
And have been standing for since 1905.

Gira / Design Configurator

Some things have to
be experienced to be
understood.

Design Configurator

With the Gira Design Configurator, you can combine all the Gira design lines with functions of your choice. You can then view and save your personally configured product live in the comfort of your own home. Try it out at:

designconfigurator.gira.com

Gira / Design lines

Gira Standard 55

⊕ Highlights

Timeless design.

Easy-care surface.

Shatter-proof thermoplastic
with UV stability.

With over 300 functions
from System 55.

Find out more.

Gira / Design lines

Gira E2

⊕ Highlights

The design original.

Shatter-proof thermoplastic with UV stability.

Additional options:
flat installation or surface-mounted version.

Stainless steel version:
Resistant surface, rust-free,
weather- and heat-resistant and
naturally antibacterial.

With over 300 functions
from System 55.

Find out more.

Gira / Design lines

Gira E2

⊕ Highlights

7 colour variants.

Flat version with 3.4 mm profile height.

With over 300 functions
from System 55.

Find out more.

Gira / Design lines

Gira Esprit

⊕ Highlights

Clear lines, timeless elegance.

Variety of colours and materials
(metal, glass and linoleum-plywood).

Bronze version (PVD):
Scratch-resistant, hygienic,
hard-wearing and environmentally
friendly thanks to recyclable coating.

With over 300 functions
from System 55.

**DESIGN
PLUS**

Find out more.

Gira / Design lines

Gira Esprit

⊕ Highlights Linoleum-plywood

Sustainability on the wall.

Organic materials obtained from renewable raw materials.

PEFC-certified birch wood.

CO₂ emissions reduced by approx. 75%*.

With over 300 functions from System 55.

* Compared to a Gira E2, 1-gang pure white glossy reference frame. Results per LCA in accordance with ISO 14040 (in critical review).

Find out more.

Gira / Design lines

Gira Studio

⊕ Highlights

Surface-mounted:
ideal for industrial and retro-chic.

Specially designed for
visible installation.

Quick and easy to disassemble
for reuse.

Made of high-quality glass
on shatter-proof thermoplastic.

With over 300 functions
from System 55.

Find out more.

Gira / Design lines

Gira Studio

⊕ Highlights

Perfect in form and function.

Made of high-quality glass.

With over 300 functions
from System 55.

Find out more.

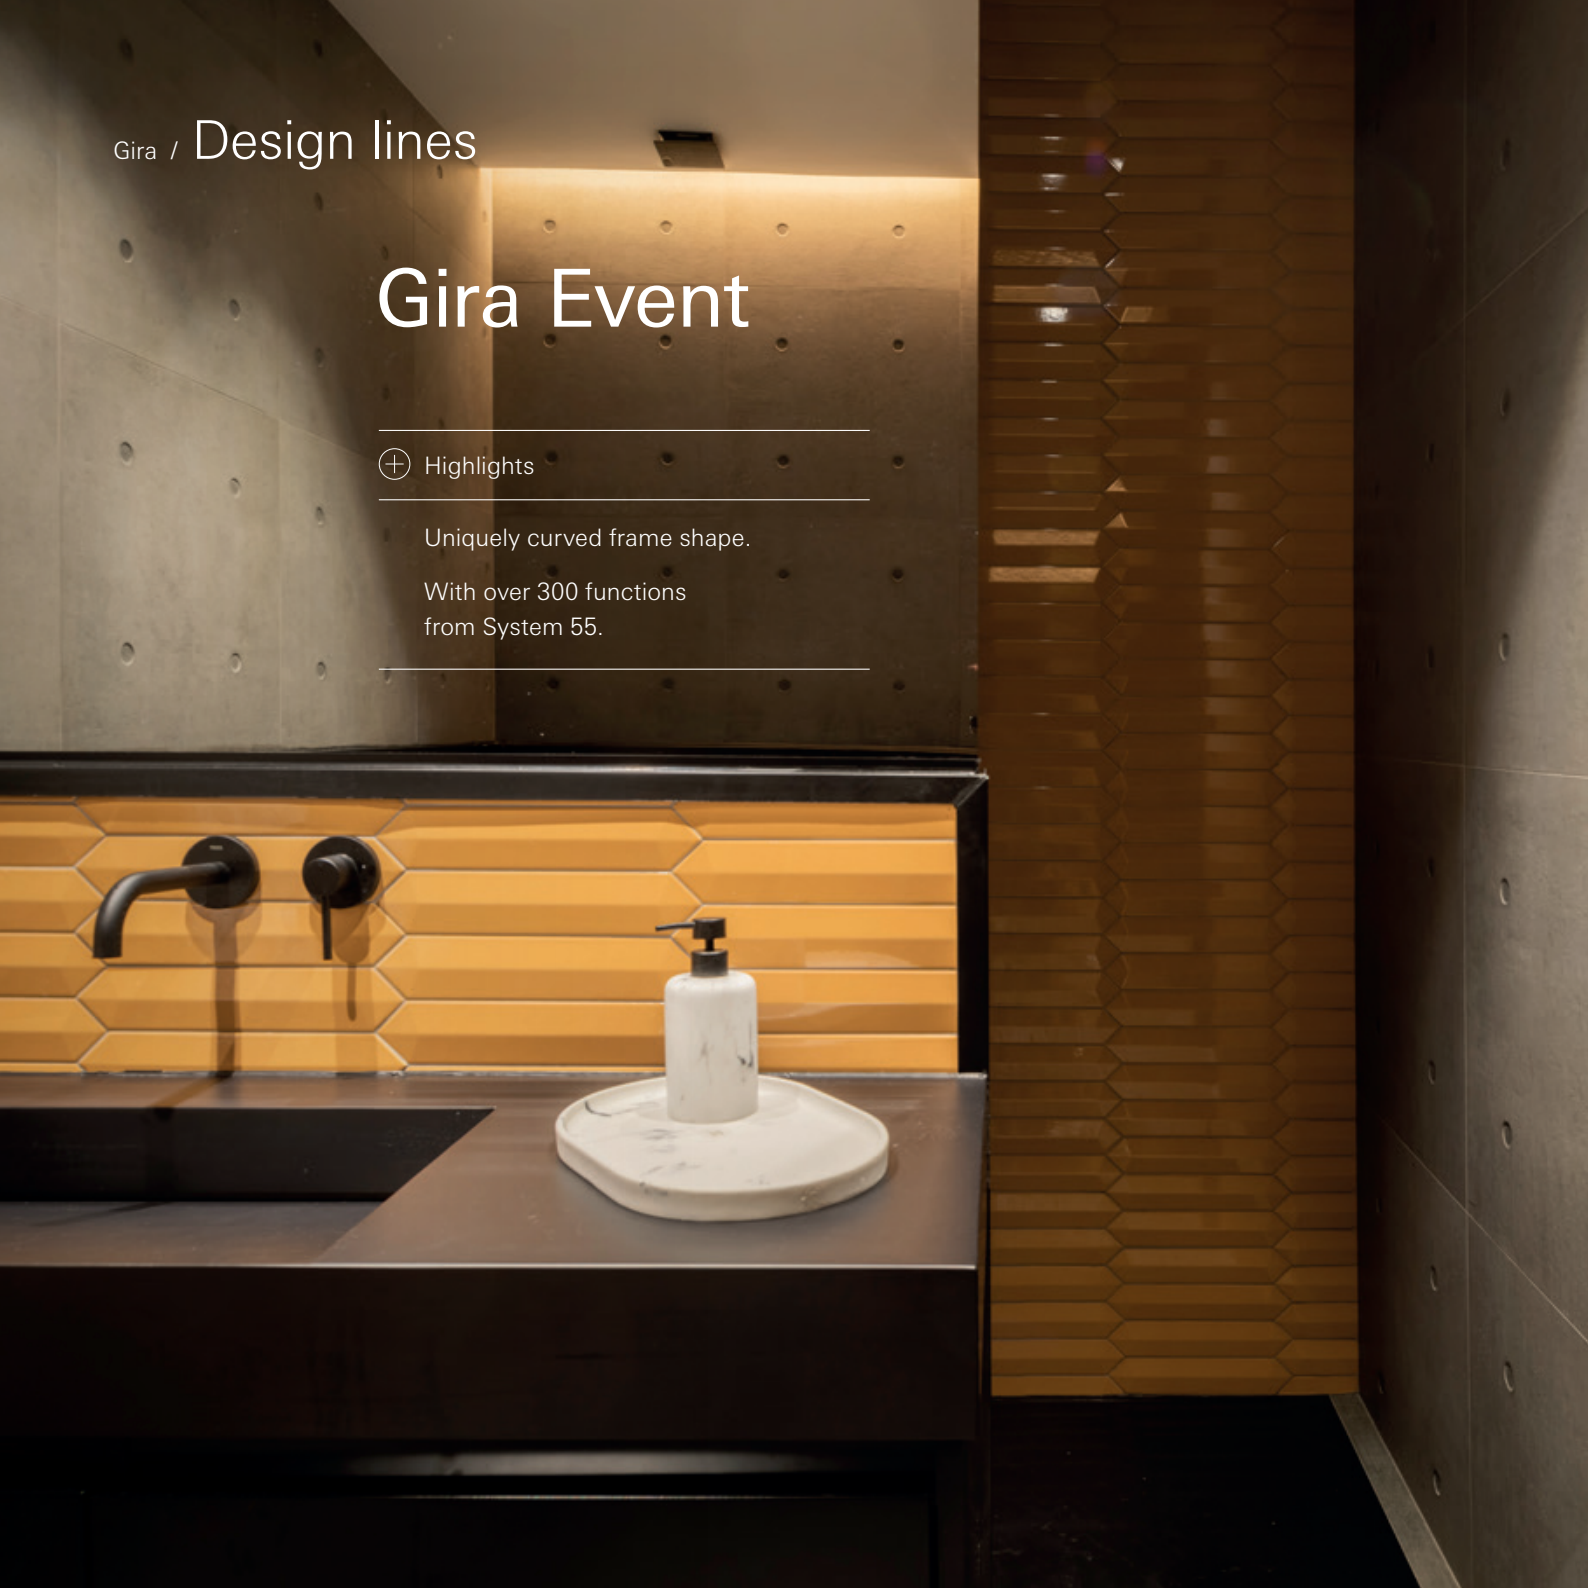

Gira / Design lines

Gira Event

⊕ Highlights

Uniquely curved frame shape.

With over 300 functions
from System 55.

Find out more.

Gira / Design lines

Gira E3

⊕ Highlights

Round design idiom.

Soft touch surface offers an easy-care, silk matt appearance.

Six subtle shades,
11 colour combinations.

With over 300 functions
from System 55.

Find out more.

Gira / Design lines

Gira F100

⊕ Highlights

Innovation with tradition.
Design classic since 1966.

Understated and timeless elegance.

Extra large operating surface.

Compatible with over 200 functions.

Find out more.

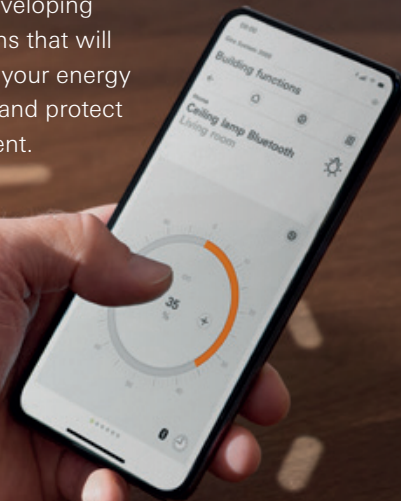

Gira / Smart Home

Gira Smart Home: The first choice for connected living.

Tomorrow's homes will combine smart technology with emotion. Because security, convenience and a sense of well-being are important components.

Gira is also developing smart functions that will help optimise your energy consumption and protect the environment.

DESIGN
PLUS

Find out more.

Gira G1

⊕ Highlights

Bright multi-touch display.

Intuitive and convenient to operate – with a tap or a gesture.

Function control that adapts to your individual rhythms of life.

One operating device for many areas of application.

Can be used in more than 20 languages.

Gira / Smart Home

Pushbutton sensor 4 for KNX

⊕ Highlights

High-quality materials in
11 colour variants.

Versions with two, four or eight
assignable function buttons.

LED in eight colours with day and
night mode (reduced brightness).

Integrated temperature sensor;
additional humidity sensor with
Komfort version.

Can be updated for future-proof
application.

Find out more.

Gira / Smart Home

Find out more.

Pushbutton sensor 4 for KNX System 55

⊕ Highlights

Suitable for all Gira System 55 design lines.

Integrated temperature sensor; additional humidity sensor with Komfort version.

Multi-coloured, individually configurable LEDs for status and operation.

Can be updated for future-proof application.

Gira / Smart Home

Find out more.

Gira System 3000

⊕ Highlights

Smart control of lighting, blinds and heating.

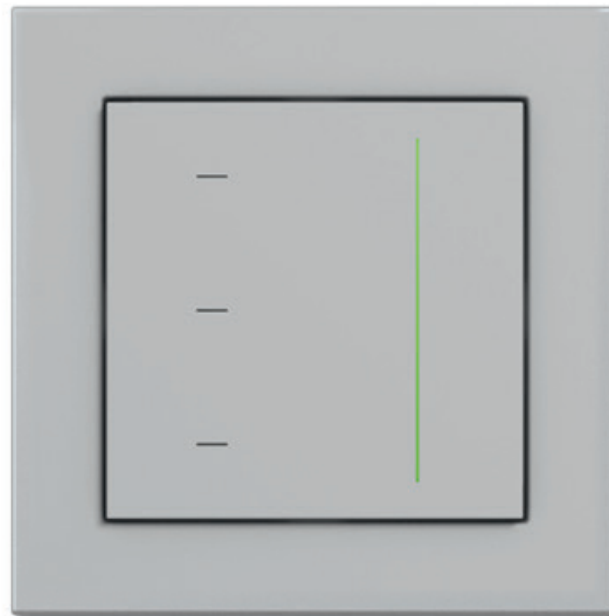

Suitable for all Gira System 55 design lines.

Integrated astro function: optimal use of daylight results in effective energy savings.

Travel times adapted to sunrise and sunset.

Can be operated manually with a switch, automatically based on schedules, or using the Bluetooth app.

Gira / Smart Home

Find out more.

Gira System 3000

⊕ Highlights touch top unit

Control lighting and blinds intuitively.

Simple operation by touch or swiping motion.

Call up your favourite settings via the memory function.

Dimmed light reduces energy consumption and extends the service life of the light sources.

Gira IP flush-mounted radio

⊕ Highlights

WLAN radio, music player and alarm in one.

Simply set up and operate by app.

Receive stations from all over the world.

Create your own list of favourites.

Switch on and off in the same way as the lighting control.

Suitable for all Gira System 55 design lines.

Find out more.

Doesn't long-term climate protection need short-term goals?

We are doing our bit to achieve the target of 1.5 degrees Celsius. We therefore continuously measure and reduce our CO₂ emissions. Our climate journey is an integral part of our corporate strategy.

Proven quality that ensures durability and sustainability.

Gira's mechanical products are developed with a useful life of at least 20 years. Our proven quality requirements go above and beyond norms and standards.

Recycling materials in our own plastics manufacturing.

We are reducing production waste to a minimum using state-of-the-art tools. We convert any waste produced into fully reusable regranulate² and feed this back into the production process for suitable product ranges.

Sustainable design lines.

With the Gira Esprit Linoleum-Multiplex, we are reducing CO₂ emissions by approx. 75%¹ by using natural materials.

Gira E2 colour aluminium is made from our own recycled material and reduces CO₂ emissions by approx 69%¹.

¹ Compared to an Gira E2, 1-gang pure white glossy reference frame. Results per LCA in accordance with ISO 14040 (in critical review).

² In the standard regranulation process, the regranulate can only be used as an approx. 15% admixture that is added to the primary granulate.

You are the focus of all of our efforts.

Inscription service

The Gira inscription service provides neat, uniform inscriptions for your doorbell inscription labels or pushbutton sensors, for example. Laser inscriptions are supplied via your electrical engineering firm. Simply order online at:

marking.gira.com

Gira online magazine

The interactive design magazine from Gira provides ideas and inspiration for current topics in home design, smart technology, architecture, lighting and lifestyle. Find inspiration at:

For us, helping to shape the future means taking sustainable business practices seriously in all areas of the company. This brochure is another way in which we are contributing to this by managing the resources we need responsibly and using environmentally compatible materials. For example, the paper grades used are FSC® certified and made of at least 60% recycled paper. Printing is climate-neutral.
